Public Meeting
Central Indiana Water Study
Phase I – Regional Water Demand

Conducted by the Indiana Finance Authority (“IFA”)

Hosted by the
White River Alliance, Indiana Water Summit
August 12, 2020

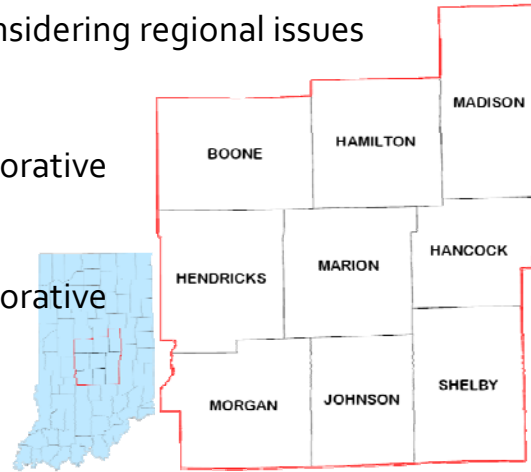

Regional Water Studies

- First regional study: 2017 Southeastern Indiana Water Study
 - Evaluated a regional supply along the I-65 corridor
- Recommendation of 2018 Water Task Force Final Report and directive from Governor’s office
- Our goals:
 - All counties will be studied
 - Help drinking water utilities better plan for their regional, long-term needs

Regional Water Studies: Central Indiana

- Which part of the state?
 - Existing group of engaged utilities considering regional issues
- What study area boundaries to use?
 - Central Indiana Drinking Water Collaborative
- What to study?
 - Central Indiana Drinking Water Collaborative
 - IDNR, USGS, IGWS, IDEM, IU

Central Indiana Water Study

- Phase I – Regional Water Demand
- Phase II – Regional Water Supply
- Phase III – Water Availability Modeling and Optimization
- Phase IV – Infrastructure and Cost Analysis
- Phase V – Public Education and Outreach

Central Indiana Water Study
