SPONSORS!***

SILTWORM™

NEW PROGRAM!

- Designed to help property owners and property managers better understand and maintain post-construction BMPs
 - Ponds, Raingarden, Permeable Pavers, Swales, Native Plantings, Manufactured Units, etc.
- Online Training Format – FREE on our website

NEW WATER STUDY RESOURCES AVAILABLE!

The screenshot shows the Indiana Finance Authority (IFA) website. The top navigation bar includes the IFA logo, "Indiana Finance Authority", and links for "About IFA", "Notices of Public Hearings", "Credit Ratings", and "Contact Us". A search bar is located in the top right corner. Below the navigation bar, there are links for "Online Services", "I Want To", and "FAQs".

The main content area is titled "Central Indiana Water Study". It features a breadcrumb trail: "IFA > REGIONAL WATER STUDIES > CENTRAL INDIANA WATER STUDY".

The page content includes:

- About IFA**
- American Rescue Plan - Non-entitlement Units**
- Notices of Public Hearings**
- Credit Ratings**
- Contact Us**
- Calendar**
- News**
- IFA-owned Properties**
- Investor Relations**
- Administrative Rulemaking**
- Project Locations by County**

IFA Programs

- Tax-Exempt Bond Programs**
- State Revolving Fund**
- Indiana Brownfields**
- WIFIA**
- SWIF & TNSW Grants**

Central Indiana Water Study

The primary goal of the IFA's Central Indiana Water Study is to provide the State and affected water utilities a better understanding of the supply and demand of water resources in the Central Indiana region.

Central Indiana is the second regional area to be studied on account of the progress already made by the Central Indiana Drinking Water Collaborative ("Collaborative"); a group of water utilities that previously organized themselves and conduct regular meetings. The study area for the Central Indiana Water Study assumes the same boundaries as the Collaborative, which are: Boone, Hamilton, Hancock, Hendricks, Johnson, Madison, Marion, Morgan, and Shelby counties.

A public meeting was held August 9, 2021 to present the final results of the study. [Press release for the public meeting.](#)

TAKE AWAYS

- ✓ Looking forward at demand, ALL of our communities will need more water.
- ✓ We have enough water in central Indiana, but ONLY IF we manage it better.
- ✓ YOU have your hands on our most precious asset everyday on your sites.
- ✓ Our collective selves need that water CLEAN ENOUGH to use for drinking, recreating, and product research and development like pharmaceuticals.
 - Your stormwater is **someone's drinking or swimming water!**
- ✓ Our collective selves need that water to be PLENTIFUL ENOUGH for manufacturing jobs and energy and population growth.
 - Your stormwater is **someone's existence or opportunity!**
- ✓ Please HELP be part of the solutions for a sustainable water future!

PROBLEM #2: QUALITY
HUGE LOAD OF POLLUTION

DEVELOPMENT

PROBLEM #1: QUANTITY
THE LOSS OF CRITICAL GROUNDWATER INFILTRATION

RE-CERTIFICATION REMINDER!

Requires proof of attendance at end of today's session via survey completion

Link is in the chat now and will remain open until 2 pm
